TENNESSEE MAN GIVES UP WAR PORTFOLIO AND NEW YORK-ER ACCEPTS POSITION.

NO FRICTION IN PRESIDENT'S CABINET

New Secretary Has No Special Military Training, Although It Is Said He is Fond of It-Taft Praises Dickinson.

Washington, D. C .- The president has just announced the resignation from the cabinet of Secretary of War Jacob M. Dickinson, and the appointment of Henry L. Stimson as the new man for the war portfolio. Mr. possibly, but certainly within a few days thereafter. As is customary in made public the correspondence which includes the letter of resignation and the president's reply of acceptance.

HENRY L. STIMSON.

The official reason given for the resignation of Mr. Dickinson is the pressure of personal business in Tennessee. There is no reason given for the appointment of Mr. Stimson other than that the president regards him as qualified for the place. To friends the president said that his opinions of Mr. Stimson were well known because he had spoken of him in superlative terms during the recent campaign in which Mr. Stimson was defeated for the position of governor of New York. Mr. Stimson has no special military training although it is said he is fond of the military and was at one time in command of Squadron A. A report that there had been friction between Secretary of State Knox and Mr. Dickinson because of the sending of troops to the making a total of 176 that have been Mexican border was denied here.

MILK TRAIN HITS AUTO

SMASHES MACHINE AND KILLS THREE OF ITS OCCUPANTS.

Long Ride Through the Country by Merry Party of Five Ends in Tragic Accident.

Herkimer, N. Y .- Emerging swiftly from the end of a covered bridge, deadened sound and cut off all view of danger, an automobile containing three women and two men was struck and torn to pieces by a milk train of the New York Central railroad four miles north of here.

The dead: W. H. VanWie, civil engineer, of Fultonville, owner of the machine; Fred Harvey, chauffeur, of Amsterdam, N. Y.; Julia Billington of Fultonville, died on train enroute to this city.

The injured: Mrs. Van Wie, wife of the man killed, condition serious; Stimson is to take charge on the 15th Gertrude Jones of Rome, N. Y., in Little Falls hospital, expected to die.

Miss Billington and Miss Jones were cases of resignation the president the guests of Mrs. VanWie. The party had set out early in the afternoon for a long ride through the country and were on their way to the VanWie home in Fultonville when the tragic accident occurred. The end of Kast's bridge, which is an enclosed structure, is only a few feet from the railroad tracks. As the machine sped across the span the members of the party were talking and laughing. The sudden shriek of a train whistle and the futile jolting of the machine as Harvey in desepration threw down the brakes brought them to an abrupt and terrible realization of their peril. Harvey and Hicks, the engineer of the milk train, had seen one another at the same moment, but it was too late.

> The big five-passenger car reached the middle of the track just as the engine of the train reached the crossing. The next instant the members of the automobile party were flung into the air and the machine was ground to bits beneath the train. Hicks stopped as quickly as he could and rushed back with the train crew. They found Mr. VanWie and Harvey They had been on the front seat of the car and had received the direct impact of the collision. All three of the women were still alive and the railroad men carried them to the train and started at high speed for Herkimer.

DECLARES WOMEN CAN'T DRINK

Aged Female Saloonist Thinks Her Sex Has Not Man's Capacity for Beer.

Boston, Mass.-Four glasses of beer are enough for the average woman, for they are all she can stand without becoming foolish. A woman needs to drink, just as a man does, but she must remember she can't stand as much, because the longer the hair, the shorter the sense. So declares Mrs. Christiania Berresheim of her bar in her own saloon and is the oldest barmaid in the Bay state and the only one in Boston. "I think I ought to know a lot about drinking," said Mrs. Berresheim, "for I've had a saloon here many years."

Angry Dumb Man Curses. New Rochelle, N. Y .- So enraged was Albert Allen, a deaf and dumb soap peddler, when Judge Samuel F. Swinburne fined him \$10 for peddling without a license that he swore. He was so astonished at recovering his voice that he stared wildly at the judge, then, without waiting to apologize for the cuss words, he threw down a \$10 bill and rushed from the court room, shouting and laughing.

HIGH TRIBUNAL UPHOLDS ORDER stock. So far as the owners of the OF LOWER COURT WITH SLIGHT MODIFICATION.

ALLOWS COMBINE SIX MONTHS TIME

United States Government Wins Big Suit Charging Violation of Sherman Anti-Trust Law-Decision Announced by Chief Justice.

Washington, D. C .- The supreme court of the United States ordered the Standard Oil Co. of New Jersey dissolved. The decision announced from the bench by Chief Justice White upheld the order of the United States circuit court with slight modifications.

Justice Harlan read a dissenting pinion in the case. "Our conclusion is," said the chief justice, "that the decree below was right, and should be affirmed except as to the minor matters concerning which we have indicated the decree should be modified. Our order will therefore be one of affirmance with directions, however, to modify the decree in accordance with this opinion, the court below to retain jurisdiction to the extent necessary to compel compliance in every respect with its decree. And so it is or-

Given Six Months to Dissolve. The court held that the 30 days given by the lower court as the time

within which the Standard Oil Co. the opinion of the chief justice was as follows: "As penalties which are not authorized by law may not be inflicted by judicial authority, it follows that to meet the situation with which we are confronted, the application of remedies twofold in character becomes essential.

"First-To forbid the danger in the future of acts like those which we have found to have been done in the past, which would be violative of the

"Second-The exertion of such measure of relief as will effectually dissolve the combination found to exist in violation of the statute and thus neutralize the extension and continually operating force which the possession of the power unlawfully obtained has brought, and will continue to bring about.

To Protect Property.

"In applying remedies for this purpose, however, the fact must not be overlooked that injury to the public by the prevention of an undue restraint on, or the monopolization of, trade or commerce is the foundation upon which the prohibitions of the statute rest; and moreover that one of the fundamental purposes of the statute is to protect, not to destroy the rights of property. The court below adjudged that the New Jersey corporation, in so far as it held stock of the various corporations, a combination in violation of the act and an attempt to monopolize or a monopolization contrary to the second section of the act. It commanded the dissolution of the combination and therefore in effect directed the transfer by the New Jersey corporation back to the stockohlders of the various subsidiary corporations entitled to the same amount of the stock which had been turned over to the New Jersey company in exchange for its

concerned, after the stock had been transferred, section six of the decree enjoined them from in any way conspiring or combining to violate the act or to monopolize or attempt to monopolize in virtue of their ownership of the stock transferred to them, and prohibited all agreements between subsidiary corporations of other stockholders in the future, tending to produce or bring about further violations of the act. and until it was consummated, the defendants named in section one, constituing all the corporations to which we have referred, were enjoined from engaging in or carrying on interstate commerce.

"And by section nine, among other things a delay of 30 days was granted for the carrying into effect of the directions of decree. So far as the decree held that the ownership of the stock of the New Jersey corporation constituted a combination in violation of the first section and an attempt to create a monopoly or to monopolize under the second section and commanded the dissolution of the combination, the decree was clearly appropriate. And this also is true of section five of the decree, which restrained both the New Jersey corporation and was forced to comply with the law the subsidiary corporations from dowas inadequate, and announced that ing things which would recognize or it would grant six months within give effect to further ownership which the Standard Oil Co. must be in the New Jersey corporation of the dissolved. BRIEF HISTORY OF FAMOUS CASE

June, 1906—Rooseveit determines to start first national prosecution of glant monopoly, and names Frank B. Keliogg of St. Paul and Charles B. Morrison of Chicago to act with Milton D. Purdy, assistant attorney general. November 18, 1906—After swift investigation by government's lawyers, suit to dissolve Standard is filed at direction of attorney general in United States circuit court for eighth judicial district in St. Louis.

June 15, 1907—To facilitate hearing, Judge Franklin Ferris of St. Louis is appointed special examiner to hear evidence.

1907-08-09—In principal cities of United States 444 hearings are held before Referce Ferris. Most noted hearing was in New York, in November, 1908, in which John D. Rockefeller, Henry H. Rogers, John D. Archbold and other Standard officers took the public on their knees and let America into the secrets of Standard oil—some of them.

February, 1909—Hearings before Referee Ferris completed.

April 3, 1909—Government files final brief, with 21 volumes of evidence, more than 25,000 pages, and 1,500 exhibits, mostly contracts, before St. Louis court, and asks that case be advanced for trial.

April 5, 1909—Arguments begun before full circut bench, Judges Walter H. Sanborn, Willis Van Devanter, William C. Hook and Elmer B. Adams.

November 20, 1909—Judge Sanborn at St. Paul reads circuit court's decision, a sweeping victory for the government, ordering the trust to dissolve within 30 days, and forbidding the Standard to engage in interstate commerce by pipe line or tank cars.

December, 1909—After stay of execution the Standard appeals direct to the United States supreme court, inasmuch as the four circuit judges sitting in extraordinary on the case were in effect a court of appeals, to which court instead of to the supreme court the case in the natural order would first have been carried.

March 8, 1910—Standard files in supreme court its brief in opposition to the circuit court's decision dissolving it as a violator of Sherman antitrust law, Filing of brief is prelude to arg

LABOR LEADERS WIN

GOMPERS, MITCHELL AND MOR-RISON SAVED FROM JAIL TERMS BY HIGH COURT.

SENTENCES ARE UNWARRANTED

Men Only Guilty of Minor Contempt and Should Have Been Punished by Fine to the Bucks Stove & Range Co., Holds Supreme Tribunal.

Washington, D. C .- Labor won practically a complete victory in a unanimous decision by the United States supreme court in the contempt cases against Samuel Gompers, John Mitchell, and Frank Morrison, officials of the American federation of labor. The court held that the imposition of jail sentences was unwarranted by the nature of the contempt. They were guilty only of civil contempt and should have been punished by a fine paid to the stove company-a fine measured by the wrong done the complainants, the court held. In view of the fact that the fight between the Bucks Stove & Range Co. and the federation, which resulted in the contempt cases, has now been patched up, the court in its decision ordered the lower court to dismiss the cases entirely. The sentence imposed by Justice Wright in the trial court were one year for Gompers, nine months for Mitchell, and six months for Mor-

Lamar Reads Decision.

Justice Lamar read the decision 'The court of appeals," he said, "held that this contempt case was not a part of the main cause between the American Federation of Lab or and the Bucks company and yet the three defendants were called as witnesses and made to testify against themselves which would not have been the case if the controversy were separate. It is purely a civil case. The only relief was the imposition of a fine, payable by the three defendants to the Bucks Stove & Range Co. There was a fatal variance with the procedure when the court imposed a jail sentence. It was Judgments Reversed.

The last paragraph of the decision reads: "The criminal sentences imposed in the civil case therefore should be set aside. The judgments of the court of appeals and the supreme court of the District of Columbit are reversed and the case remanded with decision that the contempt proceedings instituted by the Bucks Stove & Range Co. be dismissed but without prejudice to the power and right of the supreme court of the District of Columbia to punish, by a proper proceeding, contempt, if any committed against it."

"Kicking the Bucket." When we speak facetiously of some one for whom we have no reverence as having "kicked the bucket" we employ a phrase that would seem to be a piece of latter-day slang, but, as a matter of fact, it dates back to old England, when, about the year 1725, ove Bolsover hung himself to a beam while standing on the bottom of a bucket and then kicked the bucket away. Although at first used only in cases of suicide, it has been applied in the course of years to any death, without distinction.

Munyon's Paw Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour, they do not gripe, they do not weaken, but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are 26 feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produce rheumatism and kidney ailments. No woman suffers with constipation or any liver ailment can expect to have a clear complexion or enjoy good health. If I had my way I would prohibit the sale of nine-tenths of the cathartics that are now being sold for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put
